OVERHEAD CRANES

Save time and money by ensuring you get the right equipment for your business. Our experts help design, manufacture, install and service overhead crane systems – acting as a one-stop-shop to assist you with anything you may need during the lifetime of your crane.

SERVICE AND REPAIRS

One out-of-service crane can halt your operations. Our experienced technicians keep your operations running through regular servicing and repairs to your equipment. We're ready to help 24/7, and our team is equipped to quickly respond, identify and correct any issues to get you back in production sooner.

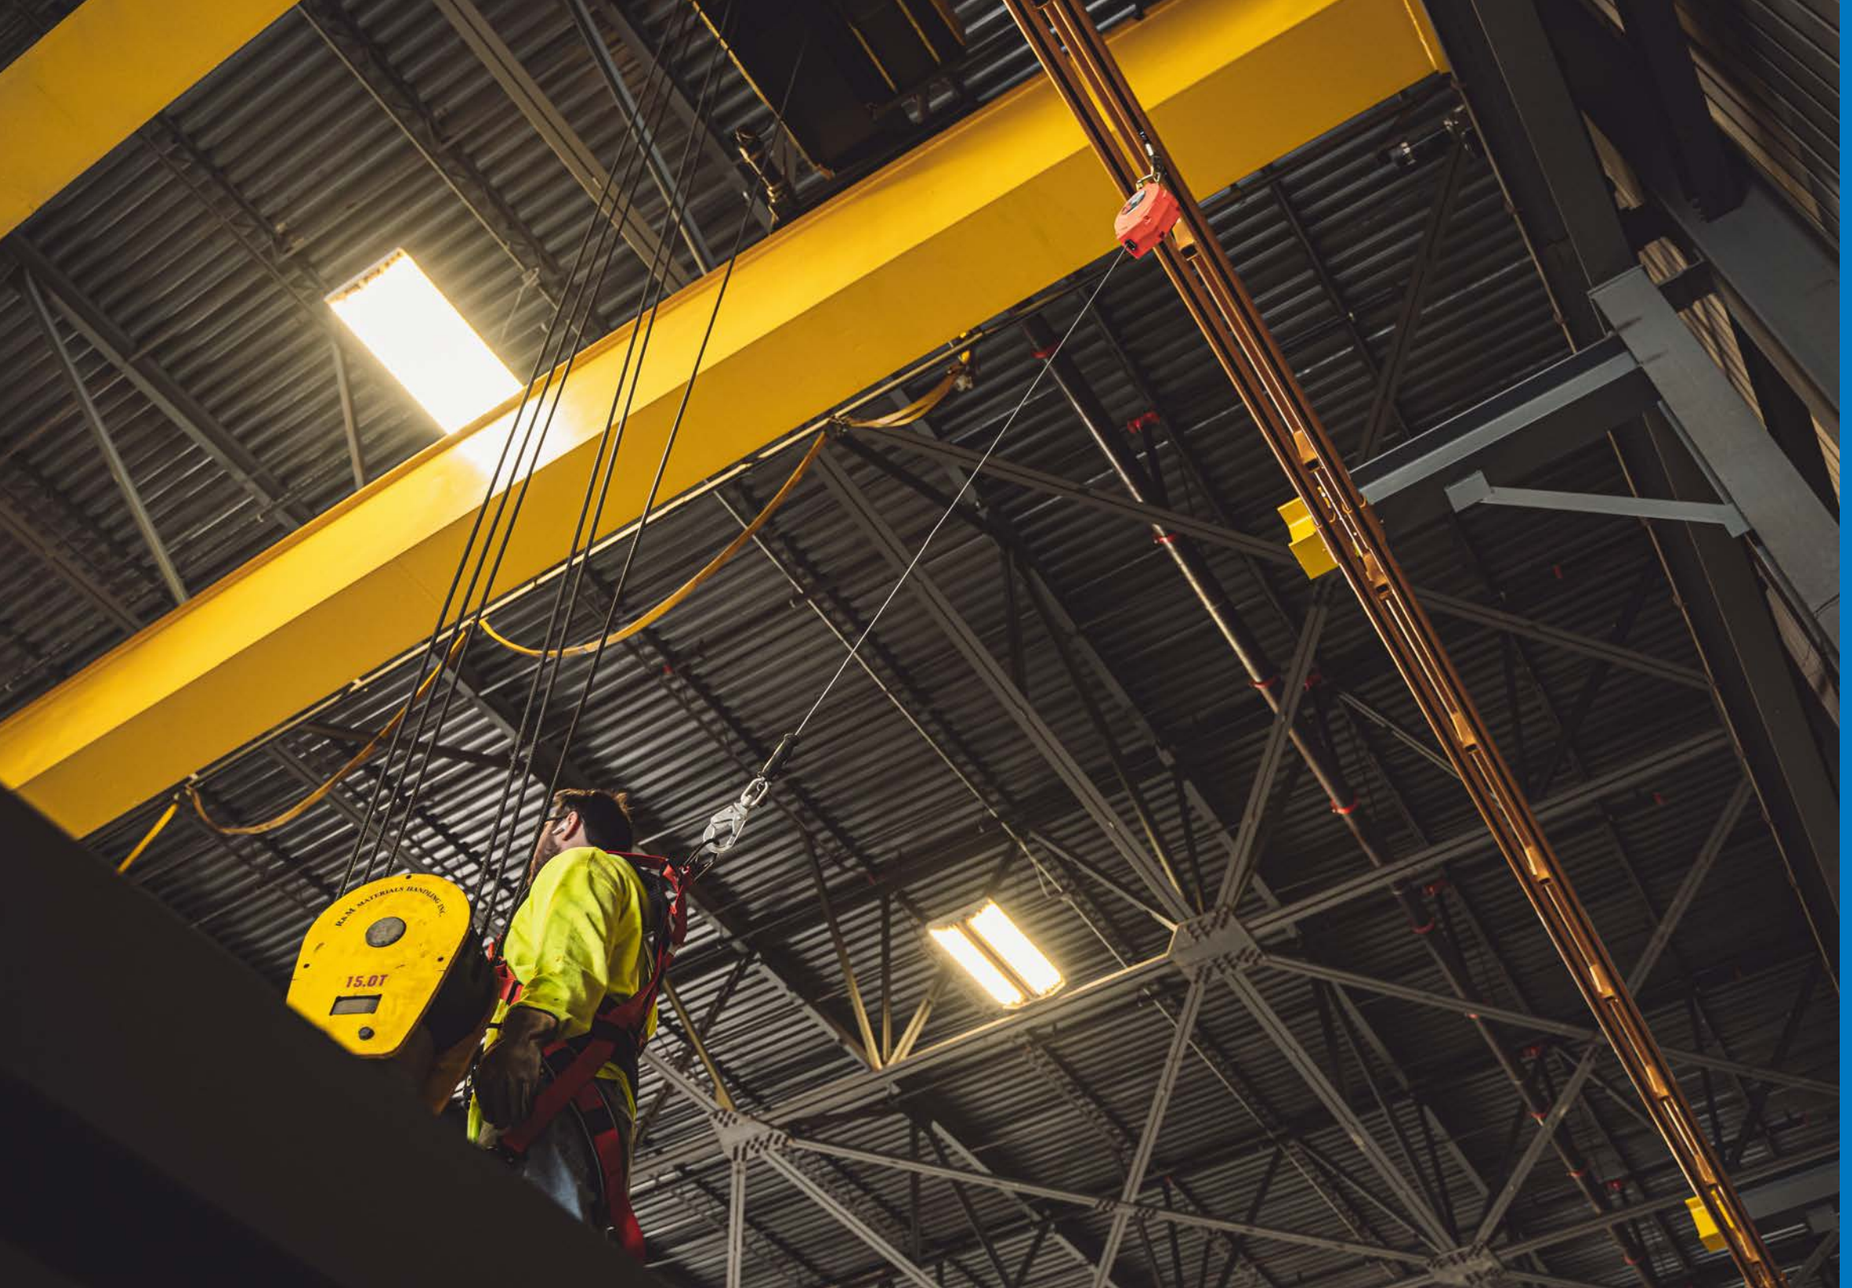
INSPECTIONS AND LOAD TESTING

We service all crane makes and models, and perform OSHA-ASME/ANSI compliance inspections required for your equipment. Our software tracks previous inspections and notifies you and our team when your equipment is due for inspection. We can easily schedule a visit to your facilities to complete the inspection and perform any maintenance required.

PARTS

With three locations, we have a wide variety of parts in stock to keep your machinery working. With next day delivery and a 24/7 call center, your parts are delivered quickly to ensure minimal downtime and minimum production loss. Our parts inventory includes:

- Hoist equipment
- Radio parts
- Bearings
- Variable frequency drives
- Pendant options
- Electrification
- Cable trolleys



FALL PROTECTION

Beyond supplying you with the right equipment for the job, we also want to ensure your employees are safe. We offer bridge, floor/ceiling, swing arm and portable fall protection systems, and our experts can help identify which system meets your industry's standards.
